

Inclusion

Port Regis has always prided itself on the breadth and diversity of its pupils. The recent pandemic has highlighted more than ever the stark inequalities across parts of the UK education sector, and so we believe it is vitally important we do all we can to open the educational experience here to children from disadvantaged backgrounds.

We partner with the Royal National Children's Springboard Foundation (<https://www.royalspringboard.org.uk/>) to identify children from socio-economically challenged backgrounds, or children who are vulnerable or on the edge of care, and offer two 110% bursaries per year. This helps transform the life prospects of these young children, and at the same time enriches the lives and experiences of the whole Port Regis community. Further details of this scheme can be accessed via the Bursary Team.
